About GekkoLab:

GekkoLab came out of ideas. What we do is come up with some, identify the ones we like the most and then make sure we have enough juice to actually implement them. That is how TypeThemAll has become our premiere on the App Store.

Currently we have some more aces up our sleeves and, hopefully, will be able to treat you with some interesting products shortly.

GekkoLab will continue to find the most easily-consumable solutions to the most useful and interesting ideas.

2000 chars:

The best gaming solution for true Wordmeisters! Challenge your vocabulary by taking advantage of different gaming modes with maximum entertainment.

The letters of the gaming grid have their value according to the frequency of use in English. Use rare letters to earn more points. The longer words you create, the more points you get. Easy as that.

Campaign

The main gaming mode will challenge you with a number of levels, divided into logical chapters. Get ready for various limitations and complications.

Time Attack

Experience some pressure and test your critical thinking while the clock is ticking. Create as many words as possible in a limited time.

Infinite Mode

Sit back and relax. This mode leaves you face to face with a numerous flow of letters to use and grow your skills. Take your time and become a true, acknowledged wordmeister.

Limitations and Assists

The game will challenge you with letter, word and time limitations. However, you have a number of game assists at your disposal too. Use Time-Bombs and Hints, Shuffle letter sets whenever you need.

You get bonus coins all the letters you create and you can later trade coins for more game assists. These help you reach higher scores.
